

REMARKS:**Summary of Amendments**

Applicants have amended claim 1 to remove inapplicable provisos from the definitions of n and m, to add definitions of P and Q, and to add a formula number 1 by the formula. Applicants have also amended claim 9 to add formula numbers 2 and 3 by the respective formulas. Claims 1-14 remain pending in the application. No new matter has been added.

Response to Restriction Requirement

The Examiner required restriction to one of the following inventions under 35 U.S.C. 121:

- I. Claims 1-6 (in part), and 9-14 (in part) drawn to compounds where X in formula I is carbon and forms 7-10 membered ring, classified in class 540, subclass, various.
- II. Claims 1-6 (in part), and 9-14 (in part) drawn to compounds where X in formula I is nitrogen and forms 7-10 membered ring, classified in class 540, subclass, various.
- III. Claims 1-6 (in part), 7-8, and 9-14 (in part) drawn to compounds where X in formula I is nitrogen and forms 6-membered ring (diazines), classified in class 544, subclass, various.
- IV. Claims 1-6 (in part), and 9-14 (in part) drawn to others (compounds does not belong to Groups I-III), classified in class 546, subclass, various.

Applicants provisionally elect Group II to be examined in the application with traverse.

Applicants respectfully submit that the claims as filed are drawn to Group II invention only. Groups I, III and IV do not exist in the application. In claim 1, X in formula 1 is nitrogen and the sum of n and m is 3 to 6, forming 7-10 membered ring, which are the subject matter of Group II invention. Claims 2-14 dependent from claim 1 are therefore all belong to Group II.

Applicants further respectfully submit that claims 7-8, which were placed by the Examiner in Group III, should be placed in Group II, because in both claims, X in formula 1 is a nitrogen atom and the sum of n and m is 3, forming 7 membered ring, which are the subject matter of Group II invention.

In view of the foregoing, Applicants respectfully request reconsideration and withdrawal of the requirement for restriction.

The Commissioner is authorized to charge the extension fee and any additional required fees, or credit any overpayment, to Goodwin Procter LLP Deposit Account No. 06-0923.

Respectfully submitted for Applicants,

Eva Tan (Reg. No. 46,406)
